

Chief, D/R

19 September 1952

Chief, D/S

25X1A

Case [REDACTED]

The following comments are made regarding the above-numbered case.

1. D/S has very little information on the subject. It has been indicated, however, that a great deal of information is available in SO.

2. A substantial portion of the material requested will be developed in projects to be undertaken by the Organizations Branch in the program proposed for the next fifteen months. The material could be developed in this routine fashion perhaps by 1 April 1953. If the project should be laid on this division as a priority, an approximate completion date would be 15 December 1952. Should this be done, our regularly scheduled branch projects will, of course, be delayed with perhaps the elimination of one of them.
